

Partner with us! Become a sponsor for the 2026 Bay Area Wildlife Symposium on December 5, 2026.

The **Bay Area Wildlife Symposium**, hosted by the **San Francisco Bay Chapter of The Wildlife Society**, brings together researchers, students, wildlife professionals, community members, and wildlife enthusiasts to share knowledge, foster collaboration, and advance the science and stewardship of wildlife throughout the Bay Area and beyond. The symposium provides a forum for the wildlife community to share ongoing academic research, land management challenges, and any conservation related work with peers. Sponsorship support helps us keep registration affordable and allows for the chapter to support students and early-career professionals. More specifically, your sponsorship supports expenses such as venue fees, insurance, food and beverage costs, scholarships, and educational materials. The Chapter is offering a tiered level sponsorship program. If these levels do not meet your expectations, please reach out directly and we can coordinate an agreement that works for both parties.

Benefit	Champion \$800	Habitat Partner \$600	Community Supporter \$400	Friends of TWS-BA \$200
